In 2015 we celebrate 77 years since Romania is a member of IARU. This year IARU celebrates 90 years since the foundation. On this occasion in Romania will be active some stations with special indicatives: YO90IARU, YP90IARU, YQ90IARU and YR90IARU.

We intend this way to inform the ham radio community about these events and to create the frame of a very intense activity in the bands allocated to the amateur service traffic.

The station will be active in all the bands and works mode starting with the 1st of February 2015 and until the 31st of December 2015.
